FOR IMMEDIATE RELEASE

Responsive Respiratory Releases New Oxygen Stimulus Package for Providers

St. Louis, Missouri - - March 12, 2009 – Responsive Respiratory, a leader in high pressure oxygen products, announced today that it is offering providers an “Oxygen Stimulus Package,” designed to offset the turmoil in both the economy and the medical industry.

The Oxygen Stimulus Package contains an in depth provider solution study and correlating oxygen and delivery analysis worksheet that addresses key aspects of an oxygen provider’s business in light of the 2009 Medicare cuts, as well as discounts and financing options on the Cyl-Fil™ Oxygen System.

RRI’s Stimulus Package arrives at the right time, as providers are seeking ways to stimulate higher profits despite Medicare cuts in a slumping economy. By taking advantage of RRI’s Stimulus Package with the Cyl-Fil O2 system, providers can expect an average \$1000 increase in profits per year, per patient from the streamlined delivery and oxygen operations. (Note: Profit increase based on a 10 cylinder per month patient).

“In today’s economy, Oxygen providers need to take advantage of every opportunity available to them to increase their profitability,” notes Tom Bannon, RRI President. “The Oxygen Stimulus Package addresses options readily available to maximize profits and reduce immediate equipment, delivery, and oxygen expenses.”

Providers can request more information about RRI’s new Stimulus Package, an on-site Cyl-Fil demonstration or FREE profitability analysis for their business by emailing sales@repondo2.com or calling 866-333-4030.

About Responsive Respiratory - - Responsive Respiratory was founded in 2002 and is dedicated to providing consumers with high quality respiratory products for the home health care and hospital markets.
